underpinning walls in old houses handycrowd

May 31st, 2020 - the concrete was to be almost 800mm wide and 600mm or so deep at this point fully underpinning the wall undisturbed walls like this can stand strong for centuries but because of their somewhat dry built nature if something moves or if you pull a stone out whole sections can tumble down like a house of cards tricky work indeed this particular wall wasn't sinking though just in '**how to be handy hairy bottom not required book release**
